| 13.30 – 14.30 | Lunch and individual discussions. |

The goal of the interactive working sessions is to:

- work out an innovative model of cooperation between local authorities, businesses, representatives of civil society; the model **servicing the development of local bioeconomy and maximizing the local benefits in the area of bioeconomy**;
- establishing model of networks and needed linkages between strategical, programming, political and administrative initiatives and **the emergence of new enterprises making business from bioeconomy**.

The interactive workshop sessions will be delivered with the use of the following methods:

- **SWOT analysis**, which helps to identify strengths and weaknesses of the Sandomierski County in terms of bioeconomy and helps in identifying opportunities and threats in this area;
- **Design Thinking method**, which helps, by using the creative approach, in working out the best solutions for the inter – sectoral cooperation serving the bioeconomy of the Sandomierski County.

The interactive workshop sessions will be held in the Polish language. The moderator of the sessions will be by PRO CIVIS expert – Ms. Katarzyna Zapala, Ph.D. The Norwegian experts will participate to the interactive workshop sessions as advisors.

The workshop will be held at Hotel Basztowy in Sandomierz, Place Poniatowskiego 2.

** the presentation will be consecutively translated into the Polish language*
