| 13.30 – 14.30 | Lunch and individual discussions. |

The goal of the interactive working sessions is to:

- work out an innovative model of cooperation between local authorities, businesses, representatives of civil society; the model **servicing the development of local bioeconomy and maximizing the local benefits in the area of bioeconomy**;
- establishing model of networks and needed linkages between strategical, programming, political and administrative initiatives and **the emergence of new enterprises making business from bioeconomy**.

The interactive workshop sessions will be delivered with the use of the following methods:

- **SWOT analysis**, which helps to identify strengths and weaknesses of the Starachowicki County in terms of bioeconomy and helps in identifying opportunities and threats in this area;
- **Design Thinking method**, which helps, by using the creative approach, in working out the best solutions for the inter – sectoral cooperation serving the bioeconomy of the Starachowicki County.

The interactive workshop sessions will be held in the Polish language. The moderator of the sessions will be PRO CIVIS expert – Ms. Katarzyna Zapala, Ph.D. The Norwegian experts will participate to the interactive workshop sessions as advisors.

The workshop will be held at Senator Hotel in Starachowice, Bankowa Street 7.

** the presentation will be consecutively translated into the Polish language*
